PROFESSIONAL SUMMARY

Detail-oriented and motivated .NET Developer with hands-on experience in developing web applications using ASP.NET MVC and ASP.NET Core MVC. Skilled in implementing CRUD operations, authentication, role-based access control, and database integration using Microsoft SQL Server. Passionate about building scalable backend systems and continuously enhancing technical skills.

TECHNICAL SKILLS

Web Technologies:
- HTML
- CSS
- Bootstrap
- AJAX

Languages:
- C
- C#
- JavaScript

Frameworks:
- Bootstrap
- Asp.Net MVC
- ASP.NET Core MVC

Database:
- MSSQL Server
- MySQL

Development Tools
- VS Code
- Visual studio
- SQL Server

SOFT SKILLS

- Problem-Solving
- Team Collaboration
- Quick Learner
- Time Management

EDUCATION

- **Diploma** in *Information Technology (Pursuing)*
  Hewett Polytechnic Lucknow
- **High School (10th)** – *UP Board*
  MRLBM Inter College, Barabanki
- **Intermediate (12th)** – *UP Board*
  MRLBM Inter College, Barabanki

PROJECTS

- **Hostel Management System** – *HMS*
  - **Role:** Full-Stack Developer
  - **Technologies:** ASP.NET Core MVC, C#, HTML, CSS, JavaScript, AJAX, Bootstrap, SQL Server
  - **Description:**
    - Developed a web-based Hostel Management System to manage students, rooms, allocations, and payments.
    - Implemented CRUD operations, authentication, session management, and role-based access control.
    - Designed responsive UI using HTML, CSS, Bootstrap for seamless user experience.
    - Integrated charts and dashboards for real-time data visualization.
- **Employee Management System**– *EMS*
  - **Role:** Full-Stack Developer
  - **Technologies:** ASP.NET MVC, C#, HTML, CSS, JavaScript, Bootstrap, SQL Server
  - **Description:**
    - Developed a system to manage employee records, departments, roles, and attendance.Implemented CRUD operations, authentication, session management, and role-based access control.
    - Implemented CRUD operations, authentication, and role-based access for admin and staff.
    - Ensured secure data handling and responsive interfaces.
- **Hospital Management System**–
  - **Role:** Full-Stack Developer
  - **Technologies:** ASP.NET MVC, C#, HTML, CSS, JavaScript, Bootstrap, SQL Server
  - **Description:**
    - Built modules for patient registration, appointment scheduling, doctor allocation, and medical records.
    - Implemented administrative control with secure data storage.
    - Developed responsive and user-friendly UI.

PROJECT HIGHLIGHTS

- ✓ Designed MVC-based web applications following proper architecture
- ✓ Implemented authentication, session handling, and role-based access
- ✓ Performed CRUD operations with validation using MS SQL Server
- ✓ Integrated charts and dashboards for data visualization
- ✓ Focused on clean UI and maintainable code structure
